"Texas Lone Star Reflection Cut" Blue Topaz

This is one of my recent commissions. This cut is very unique! The "Texas Star" is doubly reflected (The second star shows between the legs of the first star). The long kite shapes in the legs of the star wink on and off as the gem is rotated.

This gem is flawless and measures approx. 11 mm and weighs approx 7.50 ct.

I design each star a little different, so every gem is one-of-a-kind. This gem is now in a private collection. I have rough available to custom cut this or many other designs. Prices range from \$50 to \$80 per carat depending on size and complexity of design.

"The jump to Light Speed" Blue Topaz 15.62 ct Flawless Gem with concave and Fantasy Cuts. Approx 14.11 x 15.39 x 7.06 mm. Private collection. Inquire to have your own fantasy cut !

Paypal and certified check payments ship immediately. Personal checks must clear before we ship. If you are not completely satisfied after receiving your shipment, return it within 7 days after receipt for a full refund, excluding shipping.

Note: Items must be returned in the same condition as received.
